Public Space Cleaning & Inspection:

Cleanliness of the hotel is housekeeping’s ultimate responsibility. All areas of the hotel need to be kept clean all of the time. In addition to guest rooms there are other areas that guests use and gather in. These areas are known as the public spaces and could include: fitness room, pool area, business center, guest laundry, public restrooms, lobby, breakfast room and, meeting rooms. All of these areas need to be cleaned each day just like the guest room, and just like the guest room these areas need to be inspected. This task could fall to many different positions within the housekeeping department but, whoever completes this task must know how important it is. Our last inspection is a guest’s first impression of the property. Each of the public spaces at your hotel needs to have an inspection checklist form. This specific form will ensure that all components of that area have been cleaned and are ready for the guest to use.

Below are basic items that need to be on every public space checklist and inspection form:
